Preparedness & Response Updates

1. To resolve issues and to make data more conducive for action, PMRU has finalized Integrated Performance Management System software which will communicate real-time time situation from every district. Retrospective data is also incorporated onto the software.
2. A team of data analysts visited the Public Health Laboratory, analyzed the data, identified the gaps and enacted solutions
3. A uniform, comprehensive and standard Case Reporting Format is developed. Data of all cases will be collected on this format
4. Health partners coordination meeting was held under the chairmanship of Secretary health to explore the venues of interventions and bridge the gaps
5. Standard guidelines of safe and dignified burial practices were followed at the funeral of deceased patients
6. With partners' support, hand washing cabinetry will be installed at needful sites in hospitals and quarantine facilities
7. Monitoring visits were paid to quarantine facilities by the Environmental Health officers to assess the status and quality of disinfection
8. Efforts are made to activate the WASH cluster for undertaking rigorous disinfection measures at mass level
9. Mental Health & Psychosocial Support Facebook live page has been activated for providing mental health services on call from home
